Subject: Rescheduling April Meeting

Hayley,

I just want to confirm that we will start exploring SACC member availability for the weeks of

June 1-5, 2020

June 8-12, 2020

to reschedule the peer review for the draft risk evaluation of asbestos.

Diana mentioned giving the Chair a heads up before reaching out to the full committee. I can do that and then proceed with sending the full committee a link to a shared spreadsheet where they can indicate their availability.

Thoughts?

Thanks.

Steve
